

History of Hun Neng Koh Pen Primary School

The primary school of Hun Neng Koh Pen is located in Koh Pen (B) village, Koh Mit commune, Kampong Seam district, Kampong Cham province, it was built in 1943.

The first construction of the building, there were three rooms, was made from wood with the wall made from bamboos and grass-covered (used for thatching roofs). Because of the increase of student every year, the students' parents in the village had gathered some budget to construct one more room that totally four rooms in 1956. The building has been very old and about to collapse since the Pol Pot regime that the wall had broken apart for the Kapoks' depot only the roof had remained.

In 1979, the villagers organized to repair for the children in the village. Although, the teachers, school supporter committees have tried hard to maintain but the old ages wood still break apart and about to collapse.

In 1993, under the organized leader of the school director, Mr. An Meng communicated with Australians and Australia Foundation Organization for Saving Cambodian Children, helped to straighten the building then they could use till 2010.

Because of the very old condition that could be dangerous to the children, the teachers, the school supporter committees, the authorities have closed the school. So our school recently, there are not enough six rooms more for the children to study.

We would like to thank you very much for your help.

Koh Pen, 13th, August, 2011
